Dear Ms. Kochenova:

Chevron Oronite Company, LLC, has asked us to consider approving, for use in GE diesel engines, a locomotive diesel engine lubricating oil identified as LUKOIL M-14D2 <sup>confidential</sup>. It is our understanding that this is a 40 grade locomotive diesel engine lubricating oil formulated with <sup>confidential</sup> additive system <sup>confidential</sup> base stocks. The nominal alkalinity level of this lubricating oil is 13 by ASTM D 2896.

After reviewing the information supplied to us by Chevron Oronite Company, LLC, it is our technical opinion that this oil will provide satisfactory service in GE diesel engines. Therefore, we are granting "Fundamental Approval" to LUKOIL M-14D2 generation 4LL lubricating oil for use in GE diesel engines.

If you have any questions, please feel free to contact us.

Sincerely,

Najeeb Kuzhiyil  
Senior Lubricants and Fuels Technologist
