Ref.: Letter of confirmation – lubrication oils for DAX machines

Dear Mr. Kalmantaev,

Based on delivered Technical sheets for:

LUKOIL Tornado T 32

and

LUKOIL Tornado T 46

BRUSH confirms, that those oils are suitable alternative to lubrication bearing oils of those Brush generators, where ISO VG32 or ISO VG46 are specified in Turbogenerator technical specification / Operational and Maintenance manuals.

The lubricants shall be used with the viscosity grade and drain interval requirements set by the equipment manual handbooks.

Plzeň, 2015-12-17
