

Approval for LUKOIL Hydraulic oil

Eickhoff Bergbautechnik checked the data sheets of the hydraulic oils
LUKOIL GEYSER ST 46, ST 68 and ST100.

- Data sheets LUKOIL GEYSER ST 46, ST 68 and ST100 dated 2015 Dec. 08
- Safety Data sheets LUKOIL GEYSER ST 46, ST 68 and ST100 dated 2011 May 10

The hydraulic oils fulfil the requirements for the Eickhoff mining machines.

Hydraulic oil with viscosity 32 is not used in our machines.

The approval will not allow customers of Eickhoff Bergbautechnik to bring up warranty claims against Eickhoff Bergbautechnik for the use of this hydraulic oil. The approval is valid till the specification of the oils are changed.

In the future we will include LUKOIL GEYSER ST 46, ST 68 and ST 100 in our manuals.

Kind regards

A handwritten signature in black ink that reads 'Bolle'.
